

TRAFFIC SIGNAL EQUIPMENT SALVAGED BY THE DEPARTMENT

The Department desires to salvage the traffic signal equipment listed below:

| EQUIPMENT | LOCATION |
|-----------|----------|
|-----------|----------|

The Standard Specifications are revised as follows:

SECTION 805, AFTER LINE 54 INSERT AS FOLLOWS:

The traffic signal equipment which the Department desires to salvage will be marked for identification. The Contractor shall verify that such marks have not been removed due to vandalism or natural causes.

The Contractor shall remove and transport the equipment listed above to the district office or as specified in the contract. The Contractor shall be responsible for the safekeeping of the material to be salvaged by the Department until such time as it has been delivered to and accepted by the district. The Contractor shall repair all damage done to the salvageable material while it is being removed, stored, or transported to the district office.

SECTION 805, AFTER LINE 431, INSERT AS FOLLOWS:

Transportation of signal equipment salvaged by the Department will not be measured for payment.

SECTION 805, AFTER LINE 457, INSERT AS FOLLOWS:

If specified as a pay item, transportation of signal equipment salvaged by the Department will be paid for at the contract lump sum price for transportation of salvageable signal equipment.

SECTION 805, AFTER LINE 519, INSERT AS FOLLOWS:

Transportation of Salvageable Signal Equipment.....Lump Sum

SECTION 805, AFTER LINE 594, INSERT AS FOLLOWS:

The costs of equipment removal, safekeeping, transportation, and damage repair shall be included in the cost of transportation of salvageable signal equipment.
